AND VITAL STATISTICS
FROM

FOREWARD

In 1969-1970, the compiler made an alphabetical index of names which were in the Reports of the Lake County, Indiana, Historical Society (1885-1890; 1891-1895; 1896-1900; 1901-1905; 1906-1910; 1911; 1923-1924)

During the 19701-1971, year, the compiler recorded in an alphabetical manner by each set of years these names and the actual vital statistics. These statistics, for the most part, are birth dates, death dates; however, there are a few dates which list silver and golden wedding anniversaries and birthday parties.

It is the hope of the compiler that these statistics presented in the following pages will make the use of the older reports of the Lake County Historical Society more useful for the seeker of family data.
